Women, Business and the Law 2024 (WBL 2024) identifies barriers for women's economic empowerment in three areas: women's legal rights, policy instruments designed to support the implementation of these rights, and how these rights are realized in practice. For that purpose, three new *Women, Business and the Law 2.0* indexes are presented for ten indicators: (1) legal frameworks, (2) supportive frameworks, and (3) expert opinions. For the WBL 2.0 legal frameworks index, 40 questions are scored across the ten indicators for 190 economies. For the WBL 2.0 supportive frameworks index, 30 questions are scored across the ten indicators for 190 economies. Overall economy level legal and supportive frameworks scores are then calculated by taking the average of each indicator, with 100 representing the highest possible score. The WBL 2.0 expert opinions index is created for a total of 164 economies. Expert opinion scores are not available for 26 economies due to an insufficient number of responses received from those economies during data collection. Individual responses at the economy level for 15 expert opinions questions across the ten indicators are scored by taking the median value of all responses per question. The economy level expert opinions index is equal to the simple unweighted average of the ten indicator scores.
